

Written Script for the Introduction

Hi. I'm Dr. Wanda Phillips of Easy Grammar Systems. Grammar can be exciting! In my texts, you'll learn strategies and ideas that are easy to teach, easy to learn, and easy to remember. Remembering results in **mastery learning**. What's that? Do you remember, as a child, when you learned to tie your shoes? Think about the last time you wore tie shoes. No one had to teach you, did they? It was automatic. That's mastery!

Easy Grammar: Grade 1 and *Easy Grammar: Grade 2* are teaching texts that include 180 daily lessons. These lessons require only 5-10 minutes per day.

Easy Grammar *Grade 3, Grade 4, Grade 5, Grade 6, and Plus* are unit teaching texts. **Plus** is a non-grade level text mostly used at Grade 7. However, because it has such strong basics, colleges and universities purchase it.

My high school series is the *Easy Grammar Ultimate Series*. I have texts for *Grade 8, Grade 9, Grade 10, Grade 11, and Grade 12**.

My **Daily GRAMS** are review texts. These texts include 180 daily lessons for *Grade 3, Grade 4, Grade 5, Grade 6, and Grade 7*.

I also have **Easy Writing**. Students learn how to write complex structures and sentence variety using easy patterns.

We have an evidence-based study at our website, www.easygrammar.com, and in our **catalog**. Students in **Grades 3-8** used *Easy Grammar* and *Daily GRAMS* texts at an academy. **In this one-year study**, learning results were phenomenal. **227 of 282** students increased their scores by **21%-61%**. That means **85%** of the students

increased their scores by **21-61%**. In addition, **99.6 %** increased their overall scores!
The chart that explains this study may be found at easygrammar.com or in our catalog.

The goal of *Easy Grammar* and *Daily GRAMS* texts is to help students learn grammar easily, yet thoroughly. We want students to learn well in order to speak and to write correctly.

Our **100%** money-back guarantee reflects our commitment to learning.

Students glide through my texts, gaining a very solid understanding of their language. Their high standardized test scores reflect this. We recently submitted four of our books to the Parent and Teacher Choice™ Awards, a recognized organization.

We earned gold medals for **all four texts submitted!** I'm not bragging; I'm well aware my expertise is a gift for helping others.
